PROFESSIONAL SUMMARY

Aspiring AI/ML Engineer and Python Developer with hands-on experience in Machine Learning, Explainable AI (SHAP, LIME), FastAPI, and full-stack application development. Skilled in building AI-powered solutions, deploying machine learning models, and developing data-driven applications. Passionate about solving real-world problems through artificial intelligence, automation, and software engineering.

EXPERIENCE

Python Developer Intern

July/2022-Aug/2022

iBase Electrosoft LLP

- Built and deployed Python-based applications covering core concepts like OOP, file handling, and API integration, improving overall code efficiency.
- Developed a multilingual voice generation desktop application using Python and CustomTkinter with text-to-speech, speech-to-text and real-time translation support. | [Github](#) (Python | CustomTkinter | gTTS | SpeechRecognition)

PROJECT

XAI Sports Analytics Platform: [Github](#) | [Live Demo](#)

(Python | Shap | Lime | FastAPI | Streamlit | XGBoost)

- Developed an Explainable AI-based sports analytics platform to predict player performance and analyze injury risk using machine learning models.
- Integrated SHAP and LIME to generate interpretable predictions, improving model transparency and trustworthiness.
- Built interactive dashboards and visualizations to help coaches and analysts understand key performance factors and make data-driven decisions.

VisionAid – AI Assistive Navigation System: [Github](#) | [Live Demo](#)

(React | OpenCV | Next.js | YOLOv8 | FastAPI)

- Developed a real-time AI navigation system for visually impaired users using live camera input and object detection.
- Implemented obstacle detection, distance estimation, and voice-guided alerts for safer environmental navigation..
- Built a full-stack application using FastAPI and Next.js to process live camera feeds and deliver low-latency assistance.

EDUCATION

Bachelor of Engineering (Computer Science & Engineering)

June 2026

Prof. Ram Meghe College of Engineering and Management, Badnera, Amravati
Sant Gadge Baba Amravati University (SGBAU)

CGPA: 8.32/10

Diploma in Computer Engineering

May 2023

Government Polytechnic, Yavatmal.
Maharashtra State Board of Technical Education (MSBTE)

Percentage: 80.23

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Web Technologies: HTML, CSS, React, FastAPI

Cloud & Databases: MySQL, Google Cloud, Firebase

AI/ ML: Machine Learning, Explainable AI (SHAP, LIME), OpenAI API, Generative AI, Pandas, Numpy, Scikit-Learn

Tools & Technologies: Streamlit, Docker, Git

CourseWork: Data Structures & Algorithms, Operating Systems, Object-Oriented Programming, Database Management Systems, Data Science

CERTIFICATES & ACHIEVEMENTS

- Artificial Intelligence Fundamentals – IBM
- Elements of AI – University of Helsinki
- Career Essentials in Generative AI – Microsoft & LinkedIn
- AI Deployment & Automation Internship – EduSkills Academy
- Python Development Internship Certification – iBase Electrosoft LLP
- GenAI Powered Data Analytics Job Simulation - TATA
